

## *Data Visualization Assessment 03:*

In this assessment, you are supposed to do the following:

1. Use the Titanic Dataset which is already available in Seaborn library for Data Visualization
2. You are free to make as many visualization as you wish, right from scatter plot to Box plot, Violin plot, Swarm plot and whatever comes to your mind
3. Make sure each of your visualization is followed with at least one line of self explanatory statement which tells about some basic statistical inference which has been made by you.

Step 3 is optional and if you wish to share and get verified your output (with insights collected) you can mail me the same at [assimilate.ai03@gmail.com](mailto:assimilate.ai03@gmail.com)
